UNCIRCULATED COIN SET®

UNITED STATES MINT

2003

UNCIRCULATED COIN SET®

The 2003 United States Mint Uncirculated Coin Set® features uncirculated versions of all circulating coins produced by the United States Mint in 2003. The set consists of two 10-coin sets — one from the Philadelphia facility and one from the Denver facility... that's 20 coins in all! You will receive the classic coins — the Kennedy half dollar, the Roosevelt dime, the Jefferson nickel and the Lincoln cent — as well as the Golden Dollar featuring Sacagawea and the five new coins released this year in the United States Mint's 50 State Quarters® Program.

Uncirculated coins are minted on special dies and struck with greater force resulting in a higher relief than our conventional circulating coinage, making them a favorite of collectors. Your 2003 United States Mint Uncirculated Coin Set® will arrive protectively sealed in clear Mylar®, preserving these examples of the nation's coinage as they stay in their original mint condition.
